

*Got 10 Minutes for your country? If yes, then read*

We say that our government is inefficient, Laws are too Old, the municipality does not pick up the garbage, phone don't work, the railways are a joke, the Airline is the worst in the world, mails never reach their destination, our country has been fed to the dogs and is the absolute pits. We say say & say.....

We sit back wanting to be pampered and expect the government to do everything for us without our contribution. We never pick up a stray piece of paper and throw it in the bin. We make loud drawing room protestations and continue to do the reverse at home.

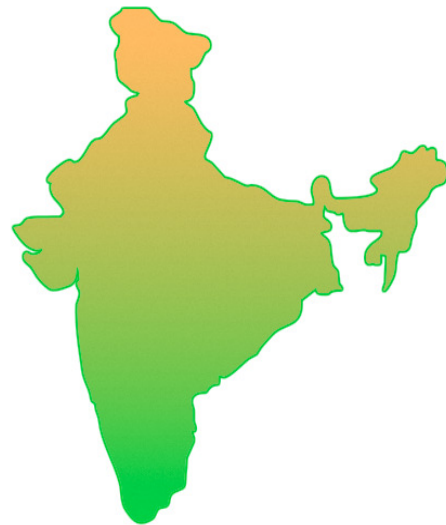

When it comes to us making a positive contribution to the system we lock ourselves along with our families into a safe cocoon and look into the distance at countries far away and wait for a Mr. Clean to come along and work miracles for us with a majestic sweep of his hand or we leave the country & run away.

We run to America to bask in their glory & praise their system.

When New York becomes insecure we sun to England.

When England experiences to the Unemployment, we take next flight out to the gulf. When the gulf is war struck, we demand to be rescued and brought home by the Indian Government.

Everybody is out to abuse the country. Nobody thinks of feeding the system. Our conscience is mortgaged to money.

*"ASK WHAT WE CAN DO FOR OUR COUNTRY AND DO WHAT HAS TO BE DONE TO MAKE YOUR COUNTRY BECOME STRONGEST AND BEAUTIFUL."*

**Harish Kumar K N, III Semester MBA (BU)**
